Our Success Story: Low-Carbon Transformation for Textile Industry "Denim" Manufacturing.

Cradle - to - Gate

- To meet rising brand demands for low-carbon product, a jeans manufacturer turned compliance pressure into a competitive edge.

- Adopting Dibiz REXIL, they achieved ISO 14067 and ISO 14068 certifications, successfully verifying the carbon neutrality of their flagship jeans.

Benefits:

- Secure more EU/US Orders
- Build "eco-responsible" image, align with market trends
- Optimise supply chain for cost savings
